

IT PAYS TO BE SAFE.

Each time you're tested, you earn a payment. And each month, your virtual card will be reloaded with that amount. For a safer, smarter school, getting tested really pays off.

All participants are eligible for the Safer, Smarter Schools incentive program. The Louisiana Department of Health will provide reloadable virtual payment cards to participants.

The payments will be uploaded to the cards at the end of every month.

- For the first test of the year, participants will receive **\$25**.
- For every test taken after the initial payment participants will receive **\$10**.

Incentives for Students:

As a part of the initial registration process through the online Color system, a consent to participate in the incentive must be completed by the parent or legal guardian if the participant is under 18 years of age. Virtual payments will be delivered to the email address provided during registration.

Virtual cards can be used for:

- Online purchases
- Over-the-phone purchases
- Point of Sale (POS)—for in-store purchases*
- Card to Bank (C2B) transfers—using the cardholder website/mobile app
- Cash Back on purchases**

*If card is added to mobile wallet and merchant accepts mobile wallet network.

**If merchant allows cash back and accepts contactless payment, cardholder will be required to use "debit."

Greenphire ClinCard Prepaid Visa offers a free mobile app you can download on either the Apple or Google Play Stores.

The app provides cardholders with an easier, faster way to perform the same functions as on the cardholder website when using their smartphone, with the bonus of push notifications (if enabled). This app is only available to U.S. ClinCard Prepaid VISA Cardholders.

Once registered, participants will receive an email much like the sample below.

NOTE: If participant does not have an email address, a physical card can be provided by calling the Safer, Smarter Schools hotline at 1-877-356-1511. The virtual card will be available for immediate use once funds are distributed at the end of every month. Using a physical card may reduce speed of payment distribution
